Clinical Observation Program

Thank you for your interest in the RJ Laser USA clinical observation program. It is designed for RJ Laser USA customers already familiar with the basics of laser physics looking to observe medical laser therapy in a clinical setting. Customers are invited to our multidisciplinary pain medicine clinic and observe our technicians using RJ Lasers under the direction of Victor Li, MD. Come learn the thought process behind our laser device selection, and see how medical lasers are being integrated into our treatment algorithms.

Cost: \$300 per day (3 day maximum)

Equipment used:

Physiolaser Olympic with the following probes: LightNeedle, Cluster Probe, 90W, Impulse Laser, and 500mW

Details: Clinic days are 8:30am to 5:00pm, Monday through Friday. Feel free to ask questions and observe our treatment protocols. As the program is *clinically* based there will be no lectures, presentations, or structured curriculum.

Lodging: We recommend the Capitola Best Western as it is one block (walking distance) from our clinic and offers reasonable rates.

Best Western Plus Capitola By-the-Sea Inn & Suites

1435 41st Avenue
Capitola, California 95010
Reservations: 800-621-8115
